- 🚫 Allergy Management
- 📱 Capture The Local Market

Order Management

The Commander app brings TouchTakeaway to the hands of businesses who are not ready to take on a fully featured EPOS solution. An easy way to manage TouchTakeaway orders, the application can be loaded onto a low-cost tablet to allow the manager to quickly view, progress, complete, and even reject orders, directly from the interface.

Upgrade to full EPOS to gain kitchen printing, driver management and CollectionPoint zones to keep the order area clear for sales.
